SUMMARY

Full-Stack Developer and final-year engineering student with hands-on experience in **C++, Java, and the MERN stack**. Skilled in building responsive web applications using **React, Next.js, and Tailwind**, along with efficient backend services using **Node.js and Express**. Strong understanding of **OOP (C++)**, **database concepts**, **query optimization**, and **API development**. I am driven by building real-world solutions, exploring emerging technologies, and optimizing systems for reliability and performance. Looking for an entry-level role where I can apply my skills, contribute to real-world products, and grow as a **full-stack engineer**.

PROJECT

TrackForge – Bug Tracking & Project Collaboration Tool

github.com/AnbCrafts/TrackForge.git • August 2025 – October 2025

- Built a scalable bug tracking and team collaboration platform supporting project creation, team onboarding, and task/issue assignment.
- Implemented granular role-based access control, threaded comments, status management, and automated workflow updates. Developed analytics dashboards for project insights—issue distribution, priority overview, and progress metrics.
- Designed a clean and professional interface using React.js + Tailwind CSS, optimized for clarity and team coordination.
- Architected a modular backend enabling fast API responses, structured resource sharing, and easy integration with future features (GitHub sync, email tickets).

FitForWork – Job Hunting & Posting Platform

github.com/AnbCrafts/FitFor-Work-updated.git June 2025 – July 2025

- Created a dual-role job platform enabling recruiters to post listings and candidates to apply with personalized profiles.
- Implemented intelligent job filtering, resume uploads, application tracking, and recruiter dashboards for streamlined hiring workflows.
- Developed a secure Express.js & MongoDB backend with robust validation and structured access control for users and data.
- Designed a fully responsive React/Tailwind UI optimized for fast, smooth usage across both mobile and desktop devices.
- Architected the system for scalability with future-ready integrations like ATS modules and AI-based job recommendations.

CodeSage – AI Code Analysis & Explanation Tool

codesage-client.onrender.com/ • April 2025 – April 2025

- Engineered an AI-assisted platform capable of analyzing, understanding, and explaining code snippets in real time using Gemini/OpenAI LLMs.
- Developed a responsive React.js frontend with Tailwind CSS to deliver smooth interactions and intuitive UI workflows.
- Implemented an Express.js backend orchestrating API calls, code-parsing logic, and secure request handling.
- Focused on accuracy and developer productivity by providing logical flow breakdowns, bug identification hints, and optimization suggestions.
- Designed the system for extensibility, enabling easy upgrades for multi-language support and advanced debugging modules.

EDUCATION

Bachelor of Technology, CSE

JIS University • Kolkata, West Bengal • 2026

Intermediate

DR. BR Ambedkar Inter College • Nirsra, Jharkhand • 2022

Matriculation

Roy Academy • Dhanbad, Jharkhand • 2020

CERTIFICATIONS

Programming in JAVA

NPTEL • 2025

Full-Stack Web Developer (React, Node, Express, Mongo)

Ardent Computech Pvt. Ltd • 2024

Python with Django

MTA Learning Private • 2024

CodeFest

JIS UNIVERSITY • 2023

SKILLS

Programming Languages: C++, JavaScript (ES6+)

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Redux, Typescript

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, SQL, MySQL

AI & Automation Tools: OpenAI API, Gemini API, Postman (Testing), N8N

DevOps & Deployment Tools: Git, GitHub, Docker, Docker Compose, Vercel, Render

AWARDS & HONORS

Hack-O-Nova : Inter College hackathon participation (36 hrs)

Adamas University • 2024

Selected among Best Performers in NPTEL Java Programming course

JIS University • 2024

College Topper in Higher Secondary (Class 12, PCM) with 91.2%

DR. BR. Ambedkar Inter College • 2022
